THE NOVEMBER GARDEN IS-
LAND steamer time-table appears in
this issue. Cut it out and paste
up in a convenient place for daily
reference.

More further delay in that Ha-
napope school matter is liable to
win Mr. Campbell another bouquet
from the "Garden Island." A
word to the wise, etc.

ONE of the pleasing features of
the celebration of the Mikado's
birthday last Friday, was the ap-
pearance of the Stars and Stripes
in unison with the Rising Sun.

If the report be true that Mr.
Ramus is responsible for the pres-
ent case of yellow fever in Hono-
lulu, he should add another title to
his name which would read "Dr.
Igno-Ramus."

MR. KINNEY, in saying that W.
O. Smith, [meaning the Inter-Is-
land Steamship Co.] was hostile to
the extension of railroads even
to those on Kauai, forgot to give a
plausible reason for delay in fur-
ther construction of the Kauai Rail-
way System.

THE GARDEN ISLAND will short-
ly be in a position to add another
interesting section to its already
newsy columns. Preparations are
under way whereby a certain sec-
tion will be devoted to social affairs
of the island, as well as social events
which occur elsewhere wherein
Kauai's people are concerned.

A FURTHER spread of yellow fe-
ver in Honolulu would justify Kauai-
ans to take whatever steps they
deem necessary to prevent a single
ship from dropping anchor within
three miles of our shores. The
fever mosquito abounds here as well
as in Honolulu, and since "an
ounce of prevention is better
than a pound of cure," it behooves
us to make every effort to keep our
island free from any possibility of
placing ourselves in the same pre-
dicament which now faces Hono-
lulu.

A Tip To Starret

At the banquet given to visiting
English chemists at New York on
September 8, Dr. H. W. Wiley,
Chief of the Bureau of Chemistry
at Washington, eulogizing the skill
brought to bear upon agriculture
in those days, instance a device
employed in arid regions of the
West. "We plant Nobe onions,"
he said, "in alternate rows with
Bumpo potatoes. The onions are
so strong that they make the eyes
of the potatoes water. Thus, quite
naturally, we avoid the ex-
pense of irrigation."

The hardware stores in the Pro-
hibition State of South Dakota are
said to be doing a big business just
now in spirit levels. The emphasis
should be laid on the word
"spirit." The instrument is a
square piece of wood about 8 in.
long, through the centre of which
is a hole running lengthwise. In
this hole a tightly corked glass tube,
containing air, of spirits, is neatly
fitted. For scientific purposes
there is an attachment consisting
of a ruler, a calendar and a pencil-
holder and there are also apertures
for enabling the owner to look in-
to the glass and see if he is stand-
ing straight. The spirit level is
sold at two for a quarter, but
the price of corkcorks in South
Dakota is not stated.

Republic Succeeds
Chinese Empire

(Special to the Garden Island)
TOKIO, Nov. 1.—The Chinese
Empire no longer exists, having to
all practical purposes been succeed-
ed by a Republican form of Govern-
ment. The throne yesterday gave
up its last prestige of power, and
the army of the Imperialists has
appealed to the Revolutionists for
amnesty.

Abject surrender of the throne
came to the assembly to-day. The
Imperial army, through its leaders,
has refused to fight against the
Revolutionists and has appealed to
the latter for mercy.

been organized here, which is com-

Squads of men are redistricting
the city. Forty non-commission
officers of the army and navy have
taken charge of the squads and
many other important and minor
details have been planned. This
might indicate an outbreak, while
